The FORTA® Ranger volumetric fiber dispenser provides an on-demand solution to adding MOBILE-MESH™ alkali resistant glass fiber to volumetric ready mix concrete projects. Its high-speed hydraulic motor and uniquely designed declumping system provide a continuous feed that can withstand harsh environments.

The Ranger reduces the opportunity for mistakes. Simply fill the drum with pre-chopped bags of MOBILE-MESH™, turn on the Ranger, and set the feed rate. The Ranger dispenses the fibers directly onto the belt or into the mixing chamber of the truck.
